

Accent Music Academy

September 2022 – August 2023

Welcome to Accent Music Academy. Attached you will find information for private students, including general policies, and information on different lesson plans. We offer options to help accommodate students in different situations regarding their availability for lesson attendance. On the registration form, you will be asked to make a choice. Please read the information thoroughly before making any decisions. If you have questions, please email us at accentmusicpa@gmail.com or call (412) 653-3340.

Payment Plan Summaries

The following plan summaries are offered to help you compare plans and decide.

The Tuition Plan is intended for students who can attend on a regular basis (4 lessons per month average) and who are willing to make up missed lessons. It is also for those who can attend at least 8 lessons during the summer months. The Tuition Plan offers lower per-lesson rates in exchange for this commitment. With this plan, you may either pay monthly or save even more by making payment installments for the school year.

The Flex Plan is intended for students who project that they may be less consistent at certain times of the school year and may not be able to make up missed lessons. It is also best for those who are not sure of their ability to commit to 8 lessons in the summer. Of course, summer lessons are still encouraged, but are not required as part of this arrangement. If you sign up for this plan, you will pay monthly and have the freedom to deduct money from a payment when you miss a lesson, provided that you cancel with proper notice.

Making a choice: Please keep in mind that, although the Tuition Plan does involve a greater commitment, you may still miss up to 3 lessons during the school year without making them up due to the occasional 5-week month. Also, the minimum summer commitment still allows plenty of time for vacations. With the Flex Plan, you will pay more per lesson. However, if you are unable to attend 4 lessons per month consistently during the school year and/or you do not wish to commit to any summer lessons, you may still save money by choosing this option. It really depends on the amount you miss and your willingness to schedule make up lessons. Our goal is to have everyone make the best choice for their given situation.

Rate Lock: Another consideration in your decision may be our Rate Lock feature. This is a new policy, offered only to tuition students at Accent Music Academy. Basically, your rates will never go up as long as you remain a tuition student. This means as long as you continue to pay for 4 lessons per month and for at least 8 lessons in the summer.

Changing Plans: Once you choose a plan, we would like you to stick with it for a while. However, if it is really not working for you, we will permit a change once per year.
